

# V4 + meeting on Nature protection, Bratislava 24th April

Mid – term review of the EU Biodiversity Strategy 2020 –  
experience of the Czech republic

# General information about the strategic documents and policies in the area of biodiversity protection in the Czech Republic

- State Environmental Policy (2012)
  - National Biodiversity Strategy (2005 – 2015)
  - State Programme for Nature and Landscape Protection of the Czech Republic
- direct linkage to the EU Biodiversity Strategy
- 

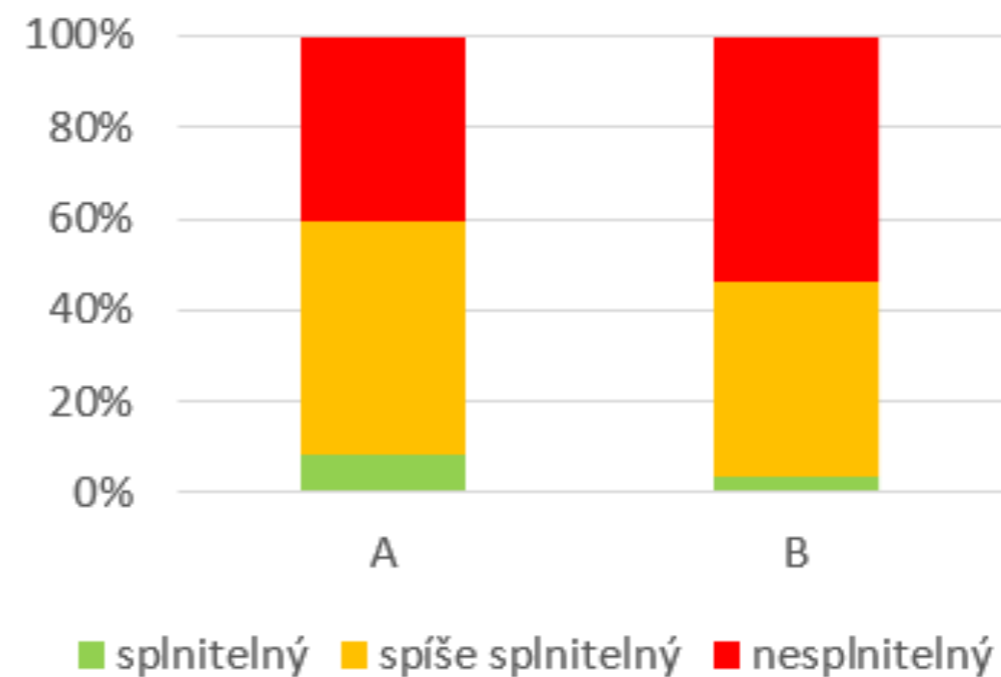

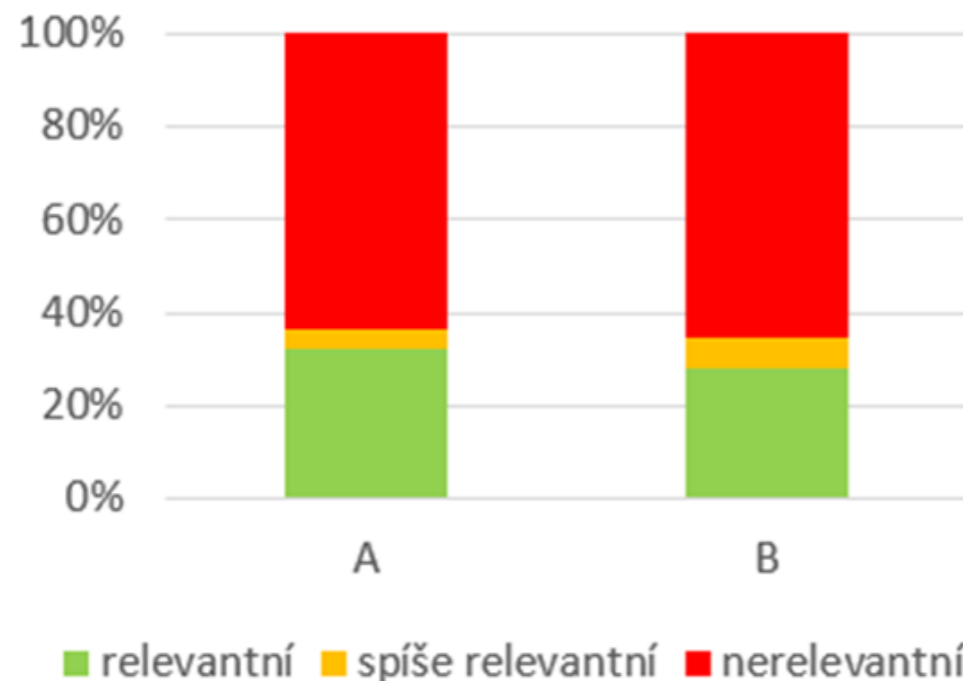

## CZ contribution to the Mid-term review of the EU Biodiversity Strategy 2020

- NBSAP is currently being updated (the goals of the EU Strategy are not reflected in the present one, monitoring of implementation is missing as well) – no source
- The 5th National Report to the CBD – key source of information about current status and trends in biodiversity
- reporting according the Article 17 of the habitats directive 92/43/EEC

## Present NBSAP 2005 - 2015

- present NBSAP has been made for period 2005-2015
- NBSAP has set more than 160 goals in strategic and sectoral themes

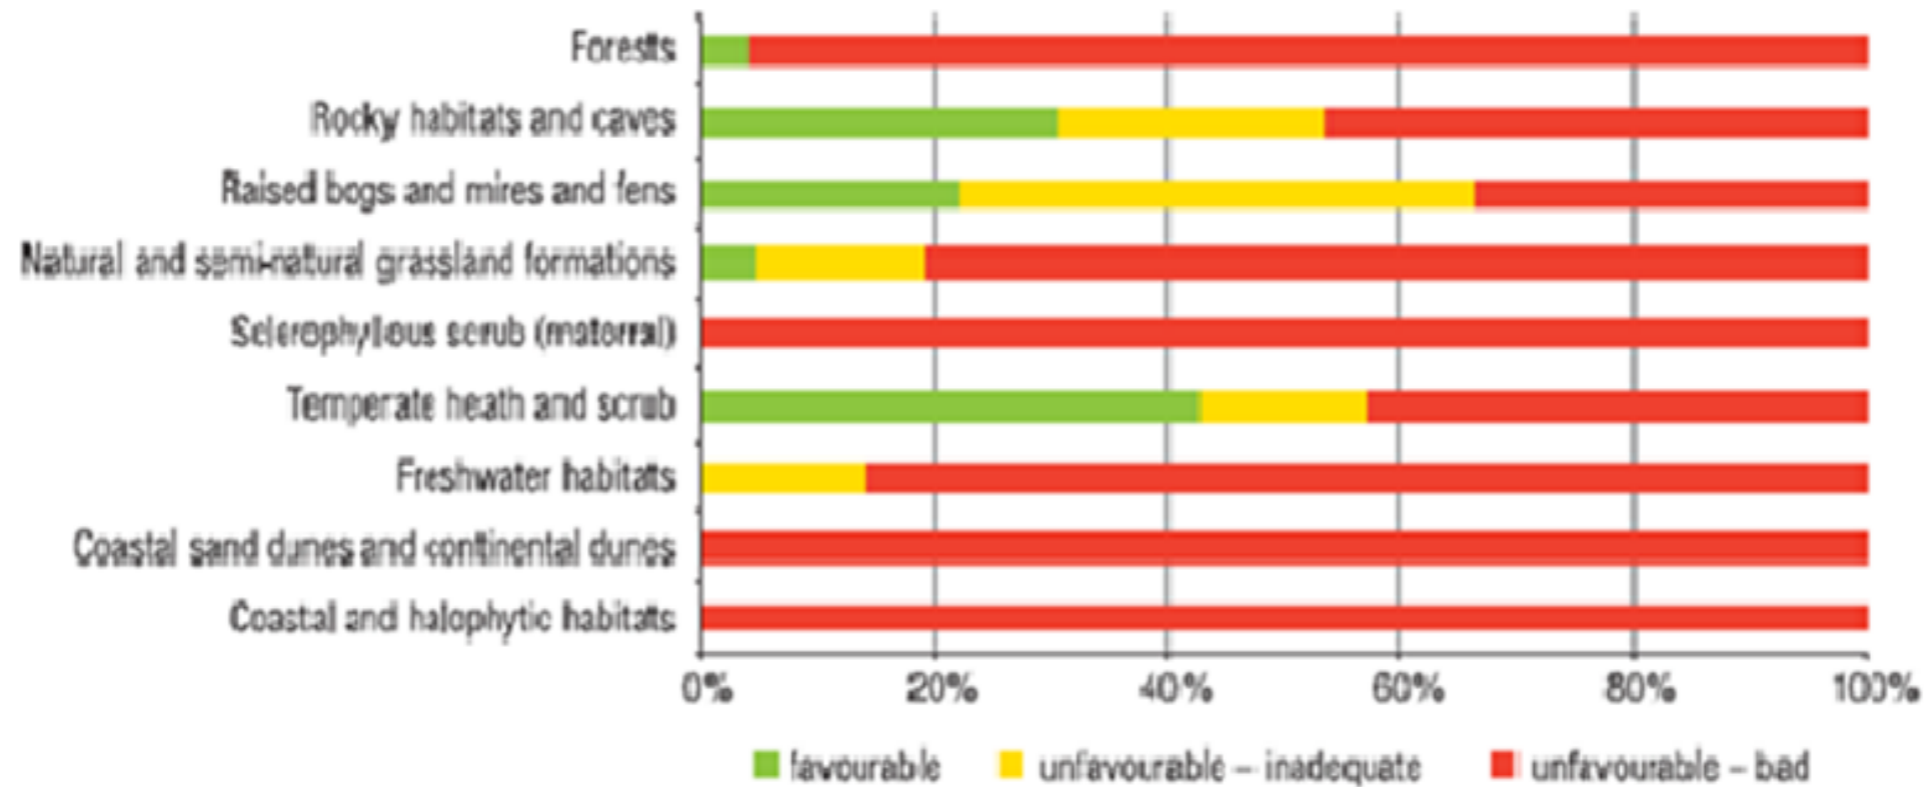

# The 5th National Report of the Czech Republic to the CBD

- an overview of the present status and trends of biodiversity and its protection in the Czech Republic
- information on the present National Biodiversity Strategy 2005 – 2015 and on its response to the current CBD Strategic Plan
- the current performance and fulfilment of the Strategic Plan and the Aichi Biodiversity Targets at the national level

# Reporting according the Article 17 of the directive 99/43/EES

- *Assessment of the conservation status of individual groups of habitats of Community interest in the Czech Republic*

# Updated NBSAP for the period 2015 - 2015

## The updated NBSAP will:

- cover all the current global objectives included relevant Aichi Biodiversity Targets and EU Biodiversity Strategy targets
- set a new package of national objectives and goals
- set a package of indicators for each of new objectives and goals
  
- provide general action plan and methodology for creation of APs at regional and municipal levels
- provide the methodology for engagement of all stakeholders within the bussiness
- show the private sector the way how to support the protection of biodiversity
  
- be inovative
- be achievable
- be simple, short and smart

Thank you for your attention!
